## Managed student accommodation

Parade Green, Oxford is one of Unite Students new purpose built student accommodation blocks. Unite Students has over 140 buildings and employs over 1,400 staff nationwide. The new benefit-in-kind rules offer clear tax incentives for employees to choose EVs. In some cases, EVs will be cost-neutral or even cheaper than the petrol/diesel equivalents.

## Preparing for an EV Fleet

In anticipation of these changes and planning conditions, Unite Students have allocated five EV parking bays for their EV fleet at Parade Green.

Two Sevadis Scatalo Duo Pedestals and one Sevadis Scatalo Pedestal were installed, totalling 5 chargepoints. These 'smart', attractive floor-standing units have dynamic load balancing functionality preventing overload of incoming electricity supplies and even distribution to simultaneous EV charging. RFID cards and the Sevadis Cloud App are used to stop/start charging and for billing electricity used.
