Case Study

Brook View

A Russell Homes development
Wincham, Northwich

A Russell Homes development

Brook View is a development of individually designed homes set within a large parkland in the heart of rural Cheshire. There are nine different house types at Brook View, with a selection of two, three and four bedroom homes ideal for growing families, professional couples, first time buyers and downsizers too.

EV charging for 103 new build homes

Brook View has achieved the NextGeneration Silver status, a major eco-assessment backed by Homes England, Lloyds Bank and the UK Green Building Control for new homes which exceed core sustainability standards. In compliance with Part S of the Building Regulations, all of the new homes have EV charging facilities. When completed, a total of 103 MaxiChargers will have been installed in a combination of wall-mounted and floor-standing pillars.

- ✓ EV charging facilities for 103 homes
- ✓ 7.4 kW sockets for fast charging
- ✓ Wall-mounted and floor-standing solutions
- ✓ Industry leading product reliability
- ✓ Dedicated account management support
