POWERING ELECTRIC VEHICLES

Case Study

Strategic Park

Two refurbished industrial warehouse units
Southampton

High specification warehouses and offices

Two industrial units have recently been refurbished at Strategic Park, Southampton, providing high quality industrial warehouses/distribution centres with office facilities. They have achieved an EPC rating of B and BREEAM rating of 'Very Good'.

EV Charging points for staff and visitors

Across the two sites a total of twenty Maxicharger 7.4kW AC charge points were installed in 10 dual pillars and two Cito DC 50kW chargers. This has created plenty of EV charging facilities for when the site is occupied.

- ✓ 99% product reliability rate
- ✓ 7.4kW for fast charging
- ✓ 50kW for rapid charging
- ✓ Type 2, CCS and ChadeMo sockets
- ✓ Dual outlet pillars to optimise usage and space
- ✓ Dedicated account management & support
