

ELECTRIC VEHICLE CHARGE POINT GRANTS EXPLAINED 2024

With 1 million electric vehicles (EVs) registered in the UK, they are revolutionising transportation and driving us towards a greener future. To support this transition further, the UK government offers various grants to facilitate the installation of EV charging points. This document provides a concise overview of these grants, highlighting eligibility criteria and key details.

Workplace Charging Scheme for State-Funded Education Institutions

- **Eligibility:** State-funded schools and education institutions in England, Wales, Scotland, and Northern Ireland.
- **Grant Amount:** £2,500 per socket, with a maximum of 40 sockets per institution.
- **Requirements:** Off-street parking facilities, site survey confirmation, no prior grants for the same charge point.
- **Funding Duration:** Until 31st March 2025.

EV Charge Point Grant for Renters and Flat Owners

- **Eligibility:** Flat owners and renters in residential properties in the UK.
- **Grant Amount:** 75% of the installation cost, up to £350 per socket.
- **Requirements:** OZEV-approved electric vehicles, property ownership or tenancy, off-street parking.
- **Funding Duration:** Until 31st March 2025.

ELECTRIC VEHICLE CHARGE POINT GRANTS EXPLAINED 2024

EV Charge Point and Infrastructure Grant for Business Staff and Fleet Car Parks

- **Eligibility:** Small and medium-sized businesses with up to 249 employees.
- **Grant Amount:** 75% of the infrastructure cost, up to £15,000, covering charge points and supporting infrastructure.
- **Requirements:** UK-based property, off-street parking for staff vehicles, OZEV-approved installers and charge points, among others.
- **Funding Duration:** Until 31st March 2025.

EV Charge Point and Infrastructure Grant for Landlords, Including Car Parks

- **Eligibility:** Residential and commercial landlords, property management companies, and public sector organizations.
- **Grant Amount:** Up to 75% off the installation cost, with specific limits for residential and commercial properties.
- **Requirements:** UK-based property, off-street parking, use of OZEV-approved installers and charge points.
- **Funding Duration:** Until 31st March 2025.

As the UK advances towards a sustainable transportation future, EV charge point grants serve as crucial incentives for individuals, businesses, and institutions to embrace electric mobility. By leveraging these grants, stakeholders can contribute to reducing carbon emissions and building a cleaner, greener environment for all.
