POWERING ELECTRIC VEHICLES

SEVADIS CLOUD POWERED BY MONTA

SMART EV CHARGING PLATFORM FOR CHARGE POINT OPERATORS & EV DRIVERS

Monta, the world-leading EV charging platform, provides businesses and EV drivers with complete control and management over their electric vehicle charging points. From saving costs with smart charging to setting multiple user tariffs, Monta allows businesses to operate their charging network with ease whilst maximising their EV charge point investment.

Suitable for domestic, commercial, fleet workplace and built environment locations.

Portal Overview

With an easy-to-use interface, Monta's portal enables charge point operators to view charge point behaviour and activity. The portal provides an affordable EV charge point back-office management system without the outlay of developing your own back-office management system and associated applications.
App Overview

Available to download via Apple Store and Google Play, Monta's smartphone app allows EV drivers to charge and pay for their usage with the tap of a finger. The Monta app also provides drivers with insights into their charging behaviour, including cost and CO_2 savings.

Load balancing
Use electrical load intelligently as you scale & save costly expenditure.

OCPP compliant
Cloud connectivity, complying to modern OCPP standards.

Security
Always running on latest firmware update, in the present & the future.

PRICING

By integrating Sevadis' EV charge point range with Monta, businesses and organisations can benefit from smart features at an affordable monthly cost.

1. Only for admin / owners of teams / operators
2. This Smart queue feature enables EV drivers to join the virtual queue at one of multiple charging sites and allows drivers to get notified when the chargepoint becomes available for them
3. Load balancing is the distribution of power between the different points of consumption. In other words, Monta automatically divides the available power over the vehicles that are charging
4. Member fees, select chargepoints access
5. In your team's wallet, you can see the transactions from and to the wallet and export the list of all the transactions
6. Relevant for companies reimbursing their employees for charging at home
7. Share your chargepoints on the world's largest roaming platform Hubject – 8% transaction fee
8. Enterprise security features: audit log, ip whitelist, 2factor / saml

Pricing Structures:

Non 4G Units	**£6.70 per socket**
4G Units	**£10.80 per socket**
